PMI® Certified Project Management Professionals

NE Project Management Consultants, LLC

**NE Project Management
Consultants, LLC**

NE Project Management Consultants is a group of certified Project Management Professionals passionate about bringing project management discipline to companies within the highly competitive Technology, Engineering and Financial Services Industries. Our mission is to assist these businesses to rapidly and measurably improve performance on projects to raise efficiency and increase corporate profitability.

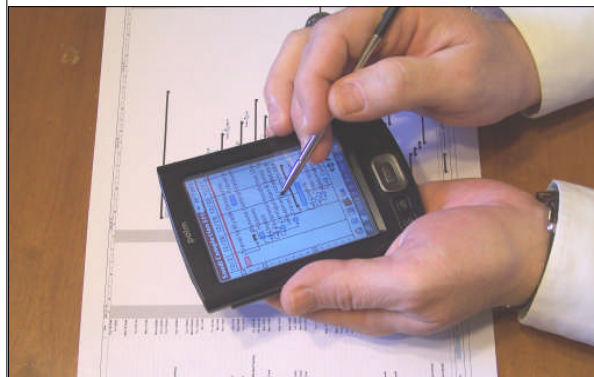

NEPMC was founded out of the belief that large corporations and smaller companies alike could benefit from implementing proven project management processes and procedures to improve project performance and delivery. We bring over 30 years of engineering and project expertise to clients to implement PM methodologies, establish project management offices, and improve performance in matrix-based environments.

Who We Are

Terry W. Yetsko, PMP

Terry Yetsko is a **PMI® Certified Project Management Professional** who brings the benefit of over 30 years of engineering and program management experience. Mr. Yetsko spent over 15 years with General Electric Automated Systems, 10 of those years as a Program Manager. Since leaving GE, he has been a Project Manager in the commercial industry, managing projects spanning a wide range of technologies and industries. These projects range from production and custom test equipment to control systems for both the extrusion coating industry and high powered radio-navigation transmitters.

Mr. Yetsko is a graduate of Lehigh University with a B.S. in Electrical Engineering.

About the Project Management Professional Certification

With over half a million members in 185 countries, the **Project Management Institute (PMI®)** is recognized as the world's leading not-for-profit professional association for project management.

The **PMP® Certification** is the project management profession's most recognized and respected global credential. To obtain PMP® certification, an individual must satisfy extensive education and experience requirements, agree to adhere to a Professional Code of Conduct, and pass the PMP® Certification Examination. The PMP® Certification Program supports the global community of project management practitioners and is designed to objectively assess and measure professional knowledge.

Attaining the status of a **Project Management Professional (PMP®)** from PMI® demonstrates that an individual possesses a solid foundation of experience and education in the field of project management.

NE Project Management Consultants places a high value on the use of only **PMI® Certified Project Management Professionals** to perform the services they provide to their clients.
